

IEEE UEMCON 2021 IoT Workshop

Windows QEMU install SCRIPT

2021-11-28

Phillip G. Bradford¹

GOAL

Showing how to compute pseudo-blockchains using virtual Raspberry Pis.
These are not blockchains, but they are a related clockchain structures.

SUBGOALS

Basic principles of distributed computing and consensus

Basic principles of digital money

SCRIPT

This is the UEMCON 2021 workshop

Windows QEMU installation and sanity check

As you know QEMU is a host of virtual machines that we will use for this workshop

We are going to install QEMU and check that one aspect of it is working.
